# **POUPART**<sup>EST</sup>**1895** **IMPORTS NOTICE BOARD**

- ◆ **Turkish Lemons**  
Our first “Noble “ brand Lemons should arrive in about three weeks time. We plan to be one of the first on the market as we have organised the first shipments to be sent by road. The crop is slightly down from last year but we should still be able to offer a full range of sizes.
  
- ◆ **Oranges**  
We are now getting regular arrivals of both Midnight and Valencias from South African and Zimbabwe. Quality has been excellent and we have all sizes available packed in both telescopic and open display cartons.
  
- ◆ **Grapes**  
We will have Spanish Crimson available for the coming weeks, all packed in 4.5kilo cartons. Greece will be the main supply for White Seedless packed as extra selected under the Gefra label. We plan to start Italian Globe and Italia in the next three weeks.
  
- ◆ **Brazilian Melons**  
This month we will receive for the first time Melons which have been extra selected for quality and flavour. Fruit will be packed in the “Famosa” brand and all varieties will be available, which we hope to offer a full range of sizes.
  
- ◆ **European Stone Fruit**  
We will have available throughout the month daily arrivals of Peaches and Nectarines. We will also continue to offer an extensive range of Plums in different packs.
  
- ◆ **Israeli Avocados**  
We hope to have available in the next fortnight the early season “Tig”. This is a greenskin variety which is similar in appearance to an Ettinger. Sizes will be on the small side primarily 18’s and 20’s, the main advantage of this fruit is that it ripens quickly as opposed to the South African Ryan variety.
