POUPART^{EST} 1895 IMPORTS NOTICE BOARD

- ◆ **Butternut Squash**
Greek Butternut will continue through September into October. The crop is still looking healthy and producing good quality squashes. Sizes range from 300g – 1500g.
- ◆ **Chinese Ginger**
This is available in 13.5kg carton (30lb) in pallets of 63. Quality is excellent, product dry and sound coming in medium to large sized fingers mark of JDM.
- ◆ **Chinese 'Peeled' Garlic**
We can offer these Peeled Cloves in units of 10x1kg bags, no minimum quantity is a problem, and samples can be provided if required. A 28 day shelf life is guaranteed on this product.
- ◆ **Portuguese Courgettes**
Early into September, we shall be receiving our first Portuguese Courgettes. Sizes will be 14-18 and 18-21cm. Product will be packed into 5kg cartons in a plain green/black carton.
- ◆ **Greek Sweet Potatoes**
During the mid to late part of September, we are expecting our first ever consignment of Greek Sweet Potatoes. Trials of the Georgia-Jette variety (Orange Flesh) have taken place over the past few years and are now at export stage. The product will be packed under the Trikala Farm brand in 6kg cartons. Sizes available will range from small (100-150g) to XL (600-800g).
- ◆ **Israeli Sweet Potatoes**
Although extreme temperatures have hindered harvesting in Israel, we are now in the knowledge that we will expect our first of the Top brand mid-late September. This product was very well received last season and we are proud to re-establish links with these growers for the second term. Typically Orange Flesh Tubers will be available in M/L1/L2 and X/L sizes packed in 6kg cartons.
- ◆ **Spanish Produce**
Throughout the course of September, we shall be introducing various lines of new season Spanish produce namely Tomatoes, Cucumbers, Peppers, Courgettes and Aubergines. Most of you would have already received some of our produce last season. It is our intention to build upon the brands we recognised as offering Quality, Continuity and Value for money. D+D, Mabe, Natures Choice and El Pincho to name but a few, will feature heavily in our 'Brand' offer. Once production volumes increases, our objective is to offer deliveries of mixed produce direct from source. This will help to reduce costs and improve freshness. If you are interested in discussing this type of business, then please do not hesitate to contact us.
- ◆ **New Crop English Anya Potatoes**
We have now moved into 'New Crop' Cornish produced Anya Potato and the quality is superb! This fingerling type of potato offers a very distinctive colour and nutty flavour and is delicious eaten hot or cold. Sales are on the increase which has been very encouraging! For those of you yet to try some, they are available in 10kg cartons, graded 20/30mm – 100 per pallet – can be delivered in half pallet if required. Rooster potatoes (stored crop) continue to be offered in 25kg 40mm sacks. The quality and versatility of the potato is excellent. These come highly recommended for you to try. After all Michel Roux and Andrew Fairlie can't be bad judges.
- ◆ Please feel free to call for more information on any of the above.
